## SLIM FAMILY

*Your full range Retail solution*

The SLIM is the most complete range for future Retail with a checkout, self-scan and self-checkout solution. Due to its modular design, based on years of experience and development, the SLIM is able to seamlessly meet the needs of every Retailer. With the many options that the range has to offer, it is easy to create the right combination of service and self-service for your store concept. The modern design gives room for various personalization options to make sure you can match the look & feel to your corporate identity. In the meantime our new integrated core makes it possible to set up your front-end in the most flexible way.

Due to its recognizable "core" centrepiece the SLIM family is ready to take on every Front-End or self-service challenge. Keeping in mind the ever changing customer journey the SLIM is flexible in adapting to your customers' needs in an intuitive way. Whether you need a belted checkout, self-checkout or hybrid solution, the SLIM offers you the right mix of furnitures to create a future proof store.

- Modern design
- Adapt to your Customers Journey
- Full range of furniture
- Flexible front-end
- Customizable
- Branding options
- Future proof
